Pages 1

Dr. Bernd Kosch, 56, is Head of Environmental Technology at Fujitsu Technology Solutions. In this role, he is in charge of coordinating all Green IT activities, be it with regard to products, to technology, to marketing or to internal processes and policies. He is also aligning Green IT activities with Fujitsu headquarters in Japan as well as with other Fujitsu companies within the group.

Bernd has comprehensive experience in systems engineering, development, sales and business development, gained in professional and senior management positions in IBM, Siemens and Fujitsu. He holds a diploma degree in mathematics and a doctoral degree in economics.

Bernd lives with his wife and his two daughters in Munich.
